**§ 279-7. Structures and construction in Town right-of-way.**

- A. Permit required. No person, persons, partnership, company or corporation shall erect or install any structure, sign, fence, lighting, wall, pavement or other vehicle access nor perform or arrange for any construction within or upon the Town highway right-of-way without first obtaining a written permit from the Town, with the exception of a mailbox and boxes installed for the delivery of newspapers. **[Amended 10-4-2006 by Ord. No. 2006-11]**
- B. Mailboxes. Mailboxes shall be installed in accordance with United States Postal Service regulations, except as it pertains to the clustering of mailboxes in all residential zoning classifications. Mailboxes shall not be clustered (two or more mailboxes per post) due to the typical lot size in residential zoning districts and for the purpose of preserving the Town's rural character. Mailboxes shall be installed but as far from the Town highway pavement as United States Postal Service these regulations allow. Mailbox supports and attachments shall be strong enough to withstand the pressure and thrust of plowed, wet snow but shall not be so formidable and massive as to damage vehicles and cause serious injury to people who may accidentally strike them.
- C. Existing structures and obstructions. Any existing structure, sign, fence, wall, pavement or other obstruction (including trees) which, in the judgment of the Town, will prevent proper snow removal from the pavement and shoulders or mowing of the ditches of the Town highway shall be removed by the owner or occupant of the adjacent property within 15 days of receiving written notice from the Town. If the owner or occupant does not remove said structure or obstruction within the allotted time, the Town shall remove it or make arrangements to have the obstruction removed and the expense of removal shall be charged to the adjacent property as a special assessment, after notice and hearing.
